

Goodwill students stay “safe” in our virtual classes. There is always a live instructor teaching and answering your questions during class in real time. When you become a student, we’ll train you how to do video conferencing before the session starts. We are always available to help with technical issues throughout the session. Don’t have a computer or Internet and want to take classes? We can help.

Call our center at 360-738-0483 and ask about our free digital loaner program!
